BENEFITS OF TAKING YOUR CAR WITH STENA LINE THIS SUMMER

- Save over €800 for a family of 4, when you take your own car on a Stena Line ferry instead of flying and hiring a car.
- If you have more than 4 people travelling in the car i.e. bigger families, then the savings via ferry with Stena Line will be even greater.
- Book a Flexi fare for €50 return more per booking and you can cancel and get a refund any time up to 24 hours before departure and for any reason (excludes £3 cancellation fee per sailing).
- The Flexi fare also allows you to change your booking free of charge, just pay the difference in fare.
- Infants 0 - 3 years travel free of charge with Stena Line, most airlines charge a fee for 0 - 1 year olds and the child price for children aged 2+.
- Taking your own car allows you to pack in as much luggage as you can fit in - FREE of charge.
- You also have the added advantage of bringing back some great value wine, cheese and other goodies from France in your boot which you can't do to the same extent when you fly.

NOTES

- The cheapest flights have been chosen for each date and location - other flights are more expensive on that day. Cheaper days may be found but Friday and Saturday are popular family travel days and the dates are popular dates this summer.
- We have featured mainly airports in areas where Irish families like to travel for their summer holidays.
- Car parking at Dublin airport is the cheapest available option for pre-booking - in the blue long stay car park.
- Car hire is based on a Compact (Group C) car e.g. Peugeot 2008 or similar with driver aged 30+ and excludes extra driver, booster seat and supercover insurance - the insurance alone could add €200 - €300 to the costs if taken.
- Car hire price is based on the pre-paid option - pay on arrival option is higher.
- Road/driving price comparisons are return and include French road tolls where applicable. They are based on current approximate fuel prices and fuel consumption for a compact car such as a Peugeot 2008 on the fastest routes.
- Driving is based on travel from Dublin city centre to either Dublin airport or Rosslare Europort and from the French airport of arrival to nearest city centre/Cherbourg to city centre nearest the airport.
- We have allowed 2 x 20kg cases for travel by air compared by taking as much luggage as you wish by ferry and you could even add a roof box on your car if required.
